Collaborative, Connected and Creative Approaches*

**Earn up to
34 CEs.**

69th Annual Workshops & Scientific Program

October 10-14, 2018

Embassy Suites by Hilton Convention Center Las Vegas, Las Vegas, Nevada

Annual Workshops

Workshops are scientifically-based and led by leaders in the field. Most include demonstrations, practica or experiential components.

- **Introductory (Basic) Workshop in Hypnosis** - taken as a cohort
- **Skills/Intermediate Workshops** - designed to sharpen your skills or be used toward certification requirements
- **Advanced Workshops in Hypnosis** - full and half day concurrent sessions to expand expertise and knowledge

Details and registration: <http://www.sceh.us/2018-conference> #SCEH2018

Scientific Program

The Scientific Program features keynotes, research presentations and symposia that **address empirical issues in hypnosis research** and practice and related areas.

Research presentations shine the light on the latest scientific findings, including experimental studies, case reports, clinical trials, meta-analyses, and systematic reviews.

Symposia bring together leading names to critically discuss empirical findings pertaining to a specific theme to improve our understanding of hypnosis. The poster session provides another glimpse into the latest hypnosis research.
